Validate your skills with SAS badges

Adding a SAS credential to your résumé signals expertise and credibility, helping you rise above the competition. SAS makes it easy with three types of digital badges.

SAS Learn Badges	SAS Knowledge Badges	SAS Certifications
Earned by completing and passing a SAS training course. Showcases practical, hands-on skill development that can be applied right away.	Earned by passing a short, unproctored assessment that verifies understanding of a specific domain. A fast, credible way to highlight emerging strengths in analytics and AI.	Earned by passing one or more SAS certification exams. Demonstrates advanced expertise and achievement recognized across both industry and academia.

You can access everything you need to prepare for these badges in **SAS Skill Builder for Students** or the **SAS Educator Portal**. You'll also find discounted certification exam vouchers for $75.

Stand out to employers

Once you earn a SAS digital badge, put it to work. Claim and share your badge to highlight your verified skills and strengthen your professional presence.

- Show prospective employers exactly what you know.
- Display your badge in the **SAS Certification and Skills Directory**, where companies looking for SAS skills can find you.

Explore open roles at SAS anytime at **sas.com/jobs**.

Prepare students for analytics careers

Academic programs that include SAS in their curriculum earn **SAS Academic Specializations**, signaling to employers that students are career-ready with hands-on experience.

- Co-branded digital badges for students to showcase skills to employers.
- Additional benefits for qualifying programs.

Find out more at **sas.com/academic-specialization**.

Show off your skills

Build in-demand skills by competing in the **Curiosity Cup** and **SAS Hackathon** – two student challenges that let you:

- Learn new problem-solving approaches using the latest analytics technology.
- Complete a data science project to help kickstart your career.
- Gain recognition and earn digital badges for your résumés.
